Profile summary

I am a principal clinical neuropsychologist and senior research fellow with a special interest in neuropsychological assessment and rehabilitation.

I completed my Doctorate in clinical psychology at University of Plymouth in 2017 and since then I have worked as a clinical neuropsychologist in the NHS. I have completed post-doctoral specialist training in clinical neuropsychology at University of Bristol (2021) and I am listed on the British Psychological Society's Specialist Register of Clinical Neuropsychologists.

I joined University of Plymouth in 2023 as a part-time senior research fellow to work on the Computerised Cognitive Assessment (CoCoA) in neurodegenerative conditions project. In that time, I have secured research funding from the Southwest Clinical Research Network (CRN), the Engineering and Physical Sciences Research Council (EPSRC) and the National Institute of Health Research (NIHR), and I am currently completing a doctoral clinical and practitioner academic fellowship (2025-2028). My research is focused on using technology and clinical biomarkers to improve neuropsychological assessment procedures in early Alzheimer's disease
In addition, I hold several honorary positions, which include:

Neuropsychology lab manager at the Brain Research and Imaging Centre (BRIC)

Honorary principal clinical neuropsychologist with Livewell Southwest and University Hospitals Plymouth NHS Trust

Clinical Neuropsychology Tutor at University of Bristol

Guest lecturer on University of Plymouth's Doctorate in Clinical Psychology

Employment

Doctoral Clinical Practitioner Academic Fellowship

Academic Other
Peninsula Medical School
University of Plymouth
United Kingdom
